## Communications to notify Managers and Team members

Admins can set up Automated Communication to keep both managers and learners (team members) informed. For example:

1. Notify managers when a team member applies for a course.
2. Notify learners when their course application is approved.

To enable notifications, create an **Automated Communication** with these triggers:

### 1. When a Team member has requested to take a course

Audience: Team Manager

Participant → Status → Is not Activated

and

Participant → Source → Is Course Catalog

### 2. When a Team manager has approved a request to take a course

Audience: Participant

Participant → Status → Is Activated

and

Participant → Source → Is Course Catalog
