Requests Tab

For courses with moderated enrollment, you can manage pending course applications in the Requests tab.

From here, you can approve or decline requests directly. Your actions will automatically update the member's enrollment status.

Moderated enrollment is set in the course settings in the catalog builder.

Communications to notify Managers and Team members

Admins can set up Automated communication to keep both managers and learners(team members) informed.

For example:

Notify managers when a team member applies for a course.

Notify learners when their course application is approved.

To enable notifications, create an Automated Communication with these triggers:

1. When a Team member has requested to take a course

Audience: Team Manager

Participant → Status → Is not Activated and Participant → Source → Is Course Catalog

2. When a Team manager has approved a request to take a course

Audience: Participant

Participant → Status → Is Activated and Participant → Source → Is Course Catalog
